

YASH KUMAR

Full Stack Developer / Open Source Contributor

+91-8865872220 | yashkumar.967565@gmail.com | yashkumar.me | linkedin.com/in/yash-kumar-2a7076325 | github.com/coder-Yash886 | [LeetCode](#) | [CodeForces](#) | [CodeChef](#)

Backend-focused Software Engineering student experienced in building scalable APIs and AI-powered applications using **Node.js**, **TypeScript**, **PostgreSQL**, and **MongoDB**. Open-source contributor to **OWASP cve-lite-cli**, building production-grade security tooling and automation through real-world contributions. Strong foundation in **DSA**, backend development, system design, and cloud deployment with **Docker** and **AWS**.

TECHNICAL SKILLS

Languages: Java, C, C++, JavaScript, TypeScript, Python, SQL

Frameworks & Technologies: React.js, Next.js, Node.js, Express.js, tRPC, WebSockets, JWT, REST APIs, HTML, CSS

Databases: PostgreSQL (Neon), MySQL, MongoDB, MongoDB Atlas

Cloud & Deployment: Docker, Firebase, Render, Vercel, CI/CD Concepts

Developer Tools: Git, GitHub, Postman, VS Code

CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks

Experience

Open Source Society (College Technical Society)

Remote

Backend Developer

Oct 2025 – Present

- Built and deployed an event registration portal using **Node.js**, **Express.js**, and **MongoDB**, handling **200+ concurrent users** during peak registration windows while following **Agile/Scrum** practices.
- Developed and tested **REST APIs** using **Postman**, collaborated through **Git/GitHub** code reviews, and debugged backend issues to maintain reliable and maintainable software.

OWASP – cve-lite-cli

Remote

Open Source Contributor

May 2026 – Present

- Built a **–debug** flag generating structured **JSONL** diagnostic logs with batch-correlated **OSV** request/response traces, cache events, and fix-validation data, with zero overhead when disabled [#471](#)
- Shipped a **–create-pr** flag to apply **OSV**-validated fixes and automatically open GitHub PRs via **gh**, with scoped dependency staging and branch-collision handling [#518](#)
- Authored a **Yarn lockfile fixture** to validate transitive dependency resolution for within-range fixes and coordinated with maintainers to isolate a companion **Yarn-parser** fix [#537](#)
- Integrated **npm registry** lookups to surface fix-version publish dates in terminal and HTML reports, enabling teams to enforce minimum **release-age security policies** [#700](#)

PROJECTS

Nexora AI – AI-Powered Video Meeting Platform

Next.js, Node.js, Stream Video SDK, Google Gemini API, Inngest, Vercel

- Built a full-stack AI video meeting platform with secure authentication, real-time meetings, automatic transcription, and AI-generated summaries.
- Integrated Stream Video SDK and Google Gemini API for video meetings, transcript-based chat, and AI-powered summaries.
- Implemented asynchronous workflows with Inngest and deployed the production application on Vercel.

nexora-ai-1qwb.vercel.app | github.com/coder-Yash886/Nexora-AI

Brain-Dock – Second Brain Content Management Platform

Node.js, Express.js, MongoDB Atlas, JWT, Vercel, Render

- Developed a full-stack platform to organize and securely share tweets, videos, links, and documents.
- Implemented JWT authentication, protected routes, and MongoDB Atlas for secure data storage; deployed frontend on Vercel and backend on Render.

brain-dock-eosin.vercel.app | github.com/coder-Yash886/Brain-dock

OSS AKGEC – Technical Community Platform

React.js, TypeScript, Node.js, Express.js, MongoDB, Vercel

- Built and maintained the official technical community platform for AKGEC, collaborating with alumni and student contributors.
- Engineered the event registration system to handle **500+ registrations during peak traffic** and developed REST APIs for event management and registration workflows.

EDUCATION

Ajay Kumar Garg Engineering College, Ghaziabad

Aug 2024 – May 2028

Bachelor of Technology in Information Technology (CGPA: 8.23)

ACHIEVEMENTS

- CodeChef:** Achieved a **2-Star** rating (1458) and solved **300+** coding problems.
- CodeChef Starters 236 (Rated):** Achieved a global rank of **659** among 30,000+ candidates.
- CodeChef Starters 237 (Rated):** Achieved a global rank of **837** among 25,000+ candidates.
- LeetCode:** Solved **280+** DSA problems and actively participated in weekly and biweekly contests.
