

YASH KUMAR

Full Stack Developer / Open Source Contributor

+91-8865872220 | yashkumar.967565@gmail.com | [GitHub](#) | [LinkedIn](#) | [LeetCode](#) | [CodeChef](#)

SUMMARY

Full Stack Developer skilled in **JavaScript**, **TypeScript**, **React.js**, **Next.js**, and **Node.js**, with hands-on experience building full-stack web applications and REST APIs. Contributed to **OWASP** open-source projects and built multiple personal projects using **MongoDB**, **Express.js**, and **JWT Authentication**. Strong foundation in **Data Structures & Algorithms**, **Object-Oriented Programming**, **DBMS**, and eager to learn and contribute in a startup environment.

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, Python

Frameworks & Technologies: React.js, Next.js, Node.js, Express.js, tRPC, WebSockets, JWT, REST APIs

Databases: MongoDB, MongoDB Atlas, PostgreSQL (Neon), MySQL

Cloud & Deployment: Docker, Firebase, Render, Vercel

Developer Tools: Git, GitHub, Postman, VS Code

CS Fundamentals: DSA, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

PROFESSIONAL EXPERIENCE

Open Source Society (College Technical Society)

Jan 2025 – Present | Ghaziabad, U.P.

Backend Developer

- Developed backend APIs using **Node.js**, **Express.js**, and **MongoDB** for technical event registration systems.
- Implemented **JWT authentication**, CRUD operations, and REST APIs for secure user management and data handling.
- Collaborated with team members using **Git**, **GitHub**, and **Postman** during development and API testing.

OWASP – cve-lite-cli

View Merged PRs | May 2026 – Present

Open Source Contributor

- Contributed to **OWASP cve-lite-cli**, an open-source CLI tool for searching Common Vulnerabilities and Exposures (CVEs).
- Submitted and merged multiple pull requests by fixing bugs, improving features, and collaborating with OWASP maintainers through GitHub code reviews.

PROJECTS

Nexora AI – AI-Powered Video Meeting Platform

[Live Link](#) | [GitHub](#)

- Built a full-stack AI video meeting platform with secure authentication, real-time video meetings, AI-generated meeting summaries, and automatic transcription.
- Integrated **Stream Video SDK** to enable video calls, meeting recording, and transcription features.
- Used the **Google Gemini API** to generate meeting summaries and provide an AI chat experience based on meeting transcripts.
- Implemented background workflows using **Inngest** to manage meeting status updates and asynchronous tasks, and deployed the application on **Vercel**.

Brain-Dock – Second Brain Content Management Platform

[Live Link](#) | [GitHub](#)

- Developed a full-stack application to organize and securely share tweets, videos, links, and documents.
- Implemented **JWT authentication**, protected routes, and integrated **MongoDB Atlas** for secure data storage.
- Deployed the frontend on **Vercel** and the backend on **Render**, exposing REST APIs for content management.

EDUCATION

Ajay Kumar Garg Engineering College, Ghaziabad

Aug 2024 – May 2028

Bachelor of Technology in Information Technology (CGPA: 8.23)

ACHIEVEMENTS

- CodeChef:** Achieved a **2-Star** rating (1458) and solved **270+** coding problems.
- LeetCode:** Solved **230+** DSA problems and actively participated in weekly and biweekly contests.
- Codeforces:** Solved **100+** competitive programming problems and participated in rated contests.

CERTIFICATIONS

- Linux Foundation LFC102** – Completed **Open Source Community Orientation**. **Certificate**
- Shaastra 2026 E-Contest (IIT Madras)** – Participated in a **Coding Contest** organized by the Indian Institute of Technology (IIT), Madras. **Certificate**
